Enviroschool webinar on LDEQ's Enforcement process to be held Dec. 10

BATON ROUGE – The Louisiana Department of Environmental Quality is hosting an Enviroschool webinar on Thursday, Dec. 10 at 10:00 a.m. The webinar will provide an overview of LDEQ's Enforcement process, including how and why the department issues enforcement actions, the difference between the various actions, and how a respondent can successfully conclude the enforcement process.

One of the main goals of LDEQ is to ensure the public health of the citizens of Louisiana by protecting the state's natural environment. This is accomplished through a program of regular inspection of permitted facilities, prompt investigation of complaints and incidents, and the issuance of timely enforcement actions that clearly document the violations and that outline a path to compliance.

Please send an email to enviroschool@la.gov to register.
